**EDITORIAL**

David said—"Trust in the Lord and do good; so shalt thou dwell in the land, and verily thou shalt be fed."—Psalms 37:3.

Gow said—"A good citizen will never consent that his voice and vote shall sanction a public wrong."

Yesterday we received a little package with the following direction on it—"Please hand the inclosed sample of..... to a friend of yours who wears dental plates". We found out that dental plates are false teeth. Now for the friend.

We were told yesterday that Lem Bailey caught fifteen pike Wednesday night the total weight of which was over fifty pounds. Several catches almost as large have been reported. The river is getting low and the fish always bite better on a falling water than when it is rising.

Someone has offered an explanation for the continued blowing of the nine o'clock whistle. He says it means to shut off the water sprinklers. We used to be told to close off sprinklers at nine o'clock but we have been under the impression that there was enough water now so that we did not need to keep hours. But the whistle still blows. Wonder who is right.

A good illustration of the value of advertising came to our notice this week. Last Friday Mr. Jandeburg put an advertisement in the Tribune telling of some Airdale puppies he had for sale. He told us to run the ad today also. Yesterday he phoned to take the ad out as he had sold all but two of the dogs and he had four buyers for them.

There is a movement on to substitute oil for coal and some of our business men have secured agencies for oil burners to be used in place of the ordinary coal grates. One form of oil burner is advertised in another column in this paper. It is a proposition that is worth investigating. Coal promises to continue to be high and possibly scarce.

**CITY AND COUNTY NEWS**

Miss Francis Dobrey leaves today for her home in Cedar Rapids, after visiting at the home of her sister Mrs. E. V. Cooper for the past few months.

Dr. H. E. Mitchell left today for Denver where he will join Mrs. Mitchell and children, who have been visiting relatives there. They will make the trip home by auto.

That the modern way to sell goods is to let the buyer know all about them is well illustrated at the demonstration of the Majestic Range in the store of W. R. Maloney Co., all this week. An expert from the factory is showing how the Majestic has won its reputation through its rugged construction, heat-tight seams, perfect damper and draft control, fine permanent finish, and other characteristics. A fine set of cooking utensils, the choice of two sets, is being given away free with every range purchased during the week.
